Gantt, Point A Lake To Be Lowered 4 Feet

POSSUM GOES BANKING

Early Tuesday morning, Roger Daughtry and a city work crew caught this half-grown possum "trying to get in the back door" of the Elba Exchange Bank.

Nesbit Lee is holding the "would-be bank bandit". Others in the picture are Larry Knight, John Mincy, Dwan Harris, Willie Flowers, Danny Cole, Navanor Williams.

ELBA ETCHES

A new door at "The Clipper"...

A 1907 Indianhead penny...

Folks gathering vegetables...

Eighteen days till school starts...

Governor and Mrs. Wallace at local church convention...

Folks talking everywhere about prices of groceries...

Young bike rider taking a spill onto the street...

RESCUE SQUAD REPORT

The rescue made by the Elba Rescue Squad during the period of July 31 through August 4 are as follows: Ronald Smith, from Highway 87 to Elba General; Ronald Smith, from Elba General to Flowers Hospital in Dothan; both on July 31.

August 1: John Payne from Elba General to his home; and Willie Pearl Magwood, from Elba General to Southeast General in Dothan; August 3: Margaret Douglas, from home to Elba General; August 4: Joel D. Burch, from Kingston to Elba General.

BOYS KILL BIG RATTLER

Last Friday at 4:00 p.m. Danny and David Harrison and Mitch Davis killed this rattler with a 410 shotgun. The snake was in the highway out on Rt. 4, near the Harrison Home. It had 7 rattles.

Parents of the boys are Mr. & Mrs. Donald Ray Harrison and Mr. & Mrs. Charles Davis.

Memorial Selection Is Completed & Ordered

The Ben Ringsdorf Memorial Monument to be installed on the square in Elba will be the one pictured here. Total height of the monument will be 6' 10". It is to be made of Monarch Blue Granite, and carved with emblems and design around the top, and will be inscribed as follows: "Ben Ringsdorf Memorial, Erected in Honor and Memory of all who served in the Southeastern Asian conflict—up to the present time. The monument will take three to four months to be manufactured."

Co-op Meet Scheduled For Tonight In Andy

All is in readiness for the big 1973 annual membership meeting of Covington Electric Cooperative, which will be held at the Municipal Stadium in Andalusia, tonight (Thursday).

Registration will open at 5:30 p.m., with free entertainment by the "Singing Spear Family," of Nashville, Tenn., starting at 6:30 p.m.

The business session will get under way at 7:15 p.m.

Program features include a humorous address by Dr. George Donaldson, of Tifton, Ga., speaking on "They Don't Stack Potatoes No More"; brief reports on Covington Electric operations; and election of two members to the Board of Trustees.

Nominees named by the Nominating Committee to be voted upon for possible election to the Board of Trustees are:

R. R. (Bud) Johnson, Dozier, District I; and Warren W. Hutcheson, Red Level, and E. F. Garnett, Andalusia, for District II.

Johnson and Hutcheson are incumbent Trustees for District I and II, respectively.

Following the business session, a 25¢ color television set, electric range, and some 30 other electrical appliances will be awarded as attendance prizes.

Each Co-op member registering will receive a free light bulb.

Concession stands will be operated by the Covington County Shrine Club.

Covington Electric provides electric service to over 12,800 consumers in Covington, Coffee, Crenshaw, Dale and Geneva counties.

Governor and Mrs. George C. Wallace visited the Zion Chapel Baptist Church Sunday, August 5, during their annual Sacred Harp Convention.

Governor and Mrs. Wallace both made short speeches to the Convention and listened to the singers for about two hours. As they left, they shook hands and talked with the people.

FIRE REPORT

One fire occurred in Elba during the period of July 31 through August 7, according to the Elba Fire Department.

On August 2 there was a grease fire in the kitchen of Shelby Phillips home, on Taylor Mill Road. No extensive damage was reported.

Each Co-op member registering will receive a free light bulb.

Concession stands will be operated by the Covington County Shrine Club.

Covington Electric provides electric service to over 12,800 consumers in Covington, Coffee, Crenshaw, Dale and Geneva counties.

Governor and Mrs. George C. Wallace visited the Zion Chapel Baptist Church Sunday, August 5, during their annual Sacred Harp Convention.

Governor and Mrs. Wallace both made short speeches to the Convention and listened to the singers for about two hours. As they left, they shook hands and talked with the people.

HOSPITAL IS 10 YEARS OLD THIS WEEK

A nurse carrying a tray of medicine immediately turns your train of thought to hospitals and that is the purpose of this picture. The Elba General Hospital will be ten years old this Saturday and the second section of this newspaper is dedicated entirely to our local hospital and the people who keep it running from day to day, twenty-four hours a day.

Editor's note: Many local business managers will wonder why they were not called upon for an advertisement in this special section. It was the purpose of this feature to salute our local hospital and not to make a bunch of money for the publishers and therefore, when we had solicited enough ads to pay the expenses of compiling and publishing the section, ad soliciting was halted.

ELBA ALL STARS WIN TROPHY IN TOURNAMENT

The Elba Dixie Youth All-Stars were defeated 4-3 by the Dothan Americans last Wednesday night. Their efforts won them a runner-up trophy and praise from the Dothan Americans coach.

For those who haven't kept up with the All-Stars, their sub-district tournament play began 2-0 in the first inning with an opening triple by Perry Fuller and a homerun by the second batter, Marty Marler.

The shut-out was pitched by Marty Marler who struck out 14 Troy batters.

Elba's second sub-district game was against Greenville who was defeated 6-1.

Pitcher Larry Ware struck out nine while Vince Bowers, Ricky Harvelson and Q. P. Carpenter led Elba's hitting attack.

In the final sub-district game, Elba defeated Troy again, this time 11-0 with Marty Marler pitching this shut-out also.

Vince Bowers was credited with making some fine catches in right field that could have resulted in Troy's scoring.

Outstanding hitters for Elba were: Q. P. Carpenter who hit a homerun; Calvin Belcher who hit a three-run homer; Dougie Martin and Marty Marler.

After the sub-district tournament the Elba All-Stars then went to the District Tournament where they lost their opening game to Oark 5-1. They came back Saturday to defeat Enterprise 5-2 and then defeated Cottonwood Monday night 13-10. In defeating Cottonwood, Elba collected 11 hits to come from 7-0 behind.

Elba's last game was against the Dothan Americans again but they lost this time 4-3. Elba had a chance for a bye but didn't win the flip of the coin. Elba had to go back to Dothan the next night and play Dothan in the rain.

Dothan had jumped out front 4-0 by the second inning and it appeared as though Elba wouldn't even score. However, Elba began a comeback in the bottom of the third inning led by an opening single by Calvin Belcher. Marty Marler then hit a homerun which made the score 4-2 in the third inning. Marty Marler scored Elba's third and final run in the fifth inning on a single by Larry Ware.

The Elba All-Stars were defeated, but not before setting six batting records in the District Tournament. The Dothan Americans coach said the Elba All-Stars were the best hitting little league team he had ever seen.

The coaches appreciate the help and support offered by parents and little league baseball fans.

Letters To The Editor

Mr. J. Ferrin Cox
The Elba Clipper
417 W. Buford
Elba, Alabama
Dear Mr. Cox:

The American Red Cross is beginning its new fiscal year (1973-74) as of July 1. With this in mind, the Division Office of Public Relations wishes to take this opportunity to thank you for your willingness to serve as your chapter's Public Relations Chairman during the past year. Your efforts are indeed appreciated.

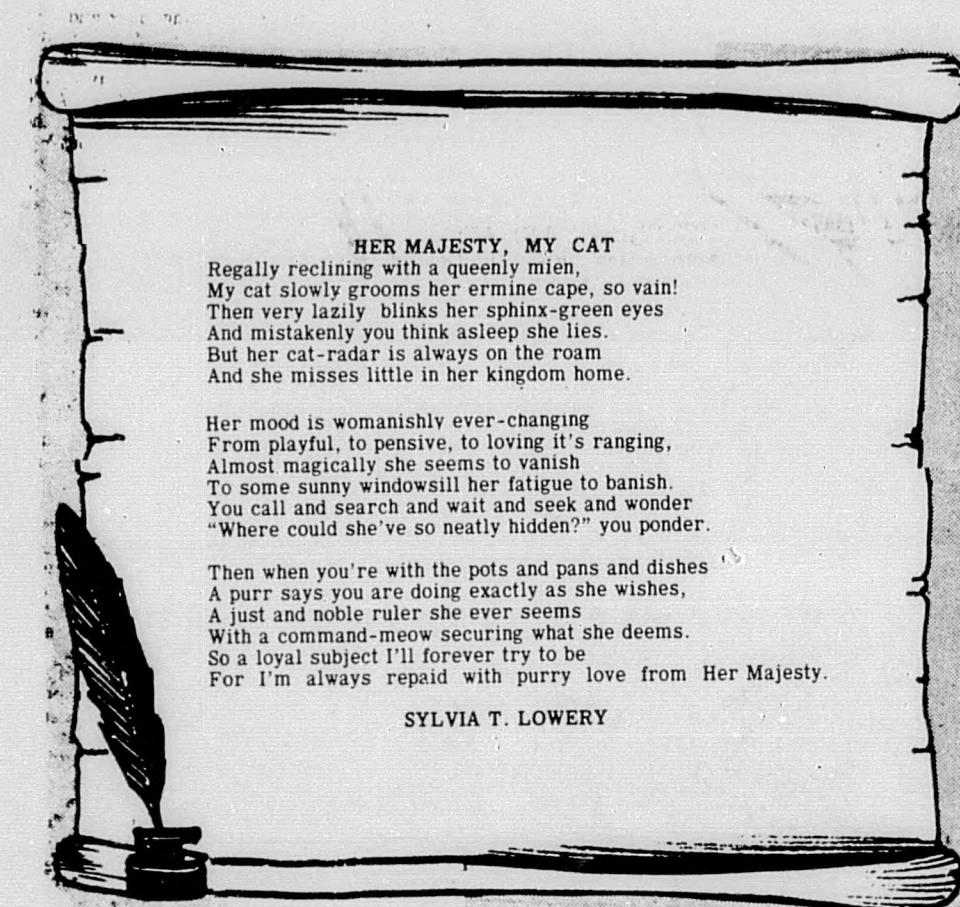

Enclosed please find a pamphlet, "Telephone News Service", which should be of great interest to you. Basically it is about a new free information service for chapters giving up-to-date news about disasters and Red Cross disaster relief efforts. This service should be of invaluable help to you as you prepare Red Cross "news releases", etc. for the local news media in your community. The news reports will only be available when disasters of national consequence occur, so calls should be made only at such times. Also, you should call your local chapter executive before making any such contact to the News Service.

It is hoped that the News Service will help you and the chapter do an even better job of maintaining good public relations. If you need any further help in organizing your chapter's public relations program, need PR supplies, etc. please do not hesitate to write or call your Division Office of Public Relations (205-438-2571, ext. 42).

Sincerely yours,
William L. Wharton, III
Division Office of PR

Sir:
We appreciate the nice library news in the Elba Clipper recently.
George Johnson

HER MAJESTY, MY CAT

Regally reclining with a queenly mien,
My cat slowly grooms her ermine cape, so vain!
Then very lazily blinks her sapphire-green eyes
And mistakenly you think asleep she lies.
But her cat-nadar is always on the roam
And she misses little in her kingdom home.

Her mood is womanish ever-changing
From playful, to pensive, to loving it's ranging,
Almost magically she seems to vanish
To some sunny window where her fatigue to banish.
You call and search and wait and seek and wonder
"Where could she've so neatly hidden?" you ponder.

Then when you're with the pots and pans and dishes,
A purr says you are doing exactly as she wishes,
A just and noble ruler she ever seems
With a command-meow securing what she deems.
So a loyal subject I'll forever try to be
For I'm always repaid with purr love from Her Majesty.

SYLVIA T. LOWERY

Congressional Pay Raise Is Out Of Question

CONGRESSMAN BILL DICKINSON

A possible raise for members of Congress, high-level bureaucrats and judges has recently been the subject of much attention in Washington and across the country.

I am opposed to receiving a pay raise for several reasons. First, and the most obvious, every Member of the House asked for his job to represent the people of his congressional district. Every Member of the House, when he filed for office, knew what the pay was. When that Member was elected, this to me, constituted a contract

between the Member and his constituents to serve in the House for two years at the present salary.

Second, and most important, there is the matter of leadership. We, as elected representatives of the people have a right to ask the people to do something we are not willing to do ourselves. We must tighten our belts, live the economic bullet and our part to slow this inflationary spiral that threatens our economic existence. To approve a pay increase for to me, constituted a contract

American people, "you make the sacrifices—we in the Congress will not."

Third, there is the matter of the subject of pay raises was brought up. The current talk about a pay raise stems from the Commission on Executive, Legislative and Judicial Salaries' latest recommendations to the President. The Commission was established by Congress in 1967 and under President Nixon's leadership. The blue ribbon panel of nine members appointed by the President, Congress and the Chief Justice of the Supreme Court makes recommendations to the President which he is free to adjust up or down. The Commission has 30 days to reject the proposal by the President. But if no action is taken to reject the plan, it becomes law immediately.

I voted against the creation of this commission in 1967 because I believed then and now, that Members of Congress should be willing to stand up and vote yes or no on the question of raising their own salaries. A pay raise should not be slipped in the back door by such a commission.

Finally, I think it is a good time for the Congress to reflect back on the 41 percent increase in salary we received in 1969.

In short, the question of a congressional pay raise is out of the question.

Sylvia Lowery

REV EDWIN R. SELLS

There is a lot of truth in the phrase, "It's all in the attitude." Our attitude makes a tremendous difference in our life and in the lives of others that we touch daily. How is your outlook of life today and how is your attitude?

Several days ago I stopped at a rest area on one of our Alabama highways. The place was crowded with many travelers stopping by. The attendant was standing just outside the building when I came out and I went by and thanked him for keeping the building and grounds so clean. He smiled and thanked me several times and demonstrated a fine attitude about his work.

His gratefulness for just a moment of my time set me to thinking. How long has it been since you thanked him for doing a job well? Oh, we say, he is paid to do that. Yes, most of us are being paid to do a lot of things we do. But—pay isn't enough—to do a job well. We have to have the right attitude about our work and our play to make a success of it.

You may help a person's attitude by thanking him for a job well done or encouraging him to continue to perform in an excellent fashion. Most of us work harder when we know our efforts are appreciated. We take so many persons for granted. Try today to thank at least one of these "forgotten persons" for doing a good job. It will be a joy to you!

FARM CENTER TO BE DEDICATED FRIDAY

The Coffee County Agricultural Center will be dedicated tomorrow afternoon (Friday), August 10, on the site between Enterprise and New Brockton. Senator Jim Allen will be the principal speaker. Other state, district and county officials will also be present.

The dedication will begin at 5:00 p.m. at the coliseum. After the program there, a reception will be held and refreshments will be served in the community room of the office center. Coffee County folks will have an opportunity to visit the individual offices.

Offices located in the center include the Federal Service, the Farmers Home Administration, the Soil Conservation Service, the ASOS Office, the Commodity Foods Distribution Office and Forest Ranger.

This new facility has been built through funds provided by the Economic Development Administration and the Coffee County Commission. Its cost was over \$600,000; its purpose is to give Coffee County farmers and other citizens better programs and more efficient service.

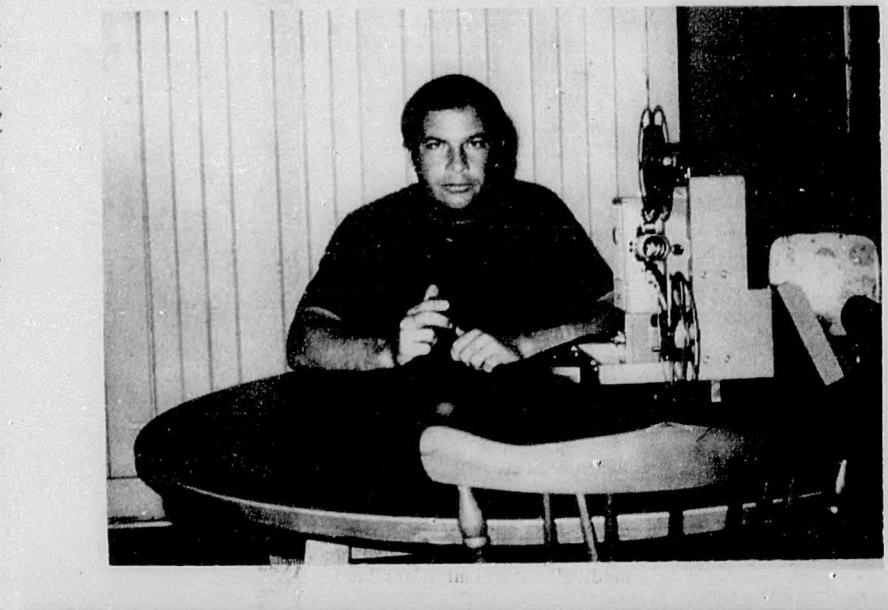

County Agent Tom Cassidy invites Coffee County citizens to call them when in need of help, or visit them. Telephone numbers are 347-6095 and 894-5296.

Senator Allen

To Speak Here

Senator Jim Allen will be the featured speaker at a dedication luncheon in Elba on Friday, August 10, at 12:00 Noon. The luncheon will be held in the new Middle School; plates

1973 ELBA HIGH SCHOOL FOOTBALL TEAM

The upcoming football season promises to be a tough one for the Elba Tigers. With an inexperienced team and a very tough schedule, Coach Bass and his staff will have their hands full for the entire football season.

Head coach Paul Bass' staff will consist of Hinton Johns, Dickie Benserger and Mance Daughtry. Hinton Johns will be backfield coach for the Tigers. This is his first year as a coach.

Mance Daughtry will coach the junior football team and be the head basketball coach. He is a 1971 graduate of Troy State.

Dickie Benserger will be Coach Bass' line coach. Coach Benserger played defensive end on Troy State's national championship team in 1968. He is a 1971 graduate of Troy State.

Are there Federal programs which offer academic scholarships or loans to students? If so, how can I obtain the information? M. P. Jasper.

SENATOR SPARKMAN: There are numerous loans and scholarships available to deserving and needy students; one of the newest being the Basic Educational Opportunity Grant. The financial office at any college can provide you with this information. Also, your job bank can tell if it is able to provide you with a Guaranteed Student Loan.

SENATOR SPARKMAN: I feel, and surely the President realizes also that he is on trial before the American people. I think he should take all possible action to clear the air, and certainly releasing those

BRAINSTORMS

With Ferrin Cox

Mr. W. F. Holloway sent us a front page of a 1955 Elba Clipper this week. Now Mr. Holloway is one of our very favorite friends, probably paying for more Elba Clipper subscriptions for members of his family than anyone we can think of right off hand. Reading over this front page we found that then Representative Jackson W. Stokes had introduced a bill ordering the commissioners to pay for a clerk in both the Tax Assessor's and the Tax Collector's offices. Just from reading the article and the editorial on the opposite side, it appears to have been a bit sticky, with some people not approving of the methods being used to get the clerk pay.

John Glen Lee was having trouble with grasshoppers in August of '55 and several local fishermen were almost drowned by "big fish" in Montgomery County. An editorial on page 2 was headlined "Elba Economic Picture Continues to Glow" and another read "Poison Well Along Road to Fulfilling Promises".

Often our County government is accused of trying to stay in the horse and buggy days, and maybe the statements are somewhat justified, but... on one subject they are ahead of the game. Just last week the three federal judges struck down a plan by the state legislature to re-district and said for county officials to get the original federal plan ready. Well I imagine that Coffee County officials all grinded when they read that message, "cause months ago our commissioners, probate judge, registrars and beat committeemen sat down and figured out - name by name - just who would be in what beat and district under the federal plan. Now all they have to do is shuffle their voters files and they are in business.

Let me throw some sweet-smelling flowers at our local state representative. The Alabama House of Representatives considered a bill to reduce the frequency of publishing voters' list from every two years to every four years. Naturally the Alabama Press Association was not in favor of the bill and this newspaper, as a member of that organization, received information and a plea to contact our local representative. Since our representative had been against the bill from the start, all I could do was just to tell him thanks. He even cited the same reasons for opposing the bill as the press association had - namely the help it is to the voters and to the board of registrars.

We have, off and on for years, urged an active civil defense program for Coffee County, and still feel it would be good if ever needed. However, there are citizens in leadership positions who are not as sold on the program and other citizens who have no opinion one way or another. Some who are for the program are so strong for it that they would just do it anyway without the full support of the people or all the governing bodies within Coffee County. Well that just won't work! I will borrow an example from a well-informed friend who knows more about both people and civil defense than I will ever know. He had had a civil defense unit in Coffee County when the tornadoes hit Elba earlier this year, and for some reason or another city officials in Elba had no faith in the organization and refused to allow them to help, then there would have been nothing in the world they could have done in Elba! Of course this is an extreme, but let's get our civil defense by working together and not by railroading. Having known Civil Defense Director C. J. (Red) Sullivan from the days of my boyhood, there is no doubt in my mind but what he wouldn't want it any other way himself.

By the time you get this paper, my family and I will be long gone on a fast trip to the Smokey Mountains. We plan to leave Wednesday after printing the paper and return Sunday, leaving "The Elba Clipper" in the hands of our trusted fellow workers. Tax Collector Max Reeves and wife, Evelyn, and I for the Smokeys on Sunday and left word that if we would look them up, we could get a good meal! Wonder if they have any steaks?

Bad Bills Threaten To Put Federal Bureaucracy

In Control Of Amateur Sports Competition

SENATOR JIM ALLEN

In a mis-quoted effort to end jurisdictional disputes between two major amateur athletic associations in the United States, bills have been introduced in both houses of Congress to create a new independent Federal agency known as the U.S. Amateur Sports Board. These are bad bills.

Expensive and expansive bureaucracy would have the power to dictate policies to all American amateur athletes and organized amateur sports competition, including those in Alabama's 667 junior and senior high schools and in our colleges and universities.

The Amateur Athletic Act of 1973 would involve the Federal Government in domestic sports competition without any clear justification. It could restrain state high school associations and college athletic conferences from holding their traditional sports championship events without sanction from a federally chartered United States Sports Association. And it would establish the authority of Federal bureaucracy in such sports matters as facilities, health, safety and equipment and set up a large federal amateur sports control establishment in areas where there absolutely is no need for one.

I subscribe to the full advancement of amateur sports in our country and in sports events where American athletes compete against those from other countries. Friendly competition in which the abilities of one individual or of a

Martin - Miller

Honored With

Cookout

Miss Terry Martin and Mr. Larry Miller were honored with a cookout at the home of Mr. and Mrs. L. A. Boyd III on Saturday evening July 28th. Other hosts were Mr. and Mrs. Harry Bullard, Mr. and Mrs. L. A. Boyd IV, and Mr. and Mrs. Cecil Wicker and Duane King.

The party began with the guests serving themselves fruit bowls from watermelon baskets. A barbecue chicken supper was then served followed by home-made ice cream. Miss Martin and Mr. Miller were presented a gift of cookware.

Other guests were: Mr. and Mrs. Cardon Grant, Mr. and Mrs. Andy Locklar, Mr. and Mrs. Jimmy Martin, Mr. and Mrs. Keith Lewis, Mr. and Mrs. Billy Bimbo, Mr. and Mrs. Kenneth Granham, Mr. Bill Taylor and Miss Gloria Jean Gannon. Mr. Don Flowers and Miss Linda Hodge, Mr. Stan Wicker, Mr. Buddy King, Miss Ann Martin, Mr. Will Martin, and Mr. and Mrs. Willard E. Martin.

Short Courses

Offered For

Fall Quarter

Hog Raising, Antiques, Auctioneering, Pharmacology, Fine Arts, Fishing, and Understanding Football for women, are a few of the many topics planned for short courses during fall quarter at Enterprise State Junior College, but suggestions are needed for other courses desired by the community.

Mr. Key, Director, Evening Division, needs help. "We hope to offer the greatest variety of enrichment short courses ever at the Junior college this year. But, we are running out of ideas. There is no limit on what courses may be offered. We have the facilities, can get instructors, and only need to know what the public wants," he said.

Other courses on the planning board include a management seminar for small businessmen; adult basic education; medical receptionist; agriculture; investment in the stock market; bookkeeping for small businesses; emergency medical training; and bootcamp. Suggestions may be made by contacting Jim Key or the dean of admissions.

Series E And H
Savings Bonds
Sales

Mr. Sam Sawyer, volunteer chairman for Coffee County reports that sales of Series E and H Savings Bonds in his county amounted to \$106,596 in June, bringing him to 52.3% of his county goal for 1973.

Over the state sales amounted to \$5,327,931 during June. Nationwide, total sales for the month reached \$556 million. Holdings of E and H Bonds reached a new peak of \$59.4 billion in June—a gain of \$286 million in the month. With the inclusion of Freedom Shares—withdrawn from sale on July 1, 1970—total holdings of Bonds/Shares reached \$59.9 billion, an all-time high.

Airman Cardwell

Assigned To A

Texas AFB

Airman Brenda L. Cardwell, daughter of Mrs. Mildred L. Drake of Liberty, Texas, has been assigned to Sheppard AFB, Tex., after completing Air Force basic training.

During her six weeks at the Air Training Command's Lackland AFB, Tex., she studied the Air Force mission, organization and customs and received special instruction in human relations.

The airman has been assigned to the Technical Training Center at Sheppard for specialized training as an aircraft maintenance specialist.

Airman Cardwell is a 1973 graduate of New Brockton High School. Her father, Henry F. Cardwell, lives on a New Brockton rural route.

Quinton Hurd Dies

On August 2nd

Quinton Paul Hurd, 54, of Columbus and formerly of Elba, died Thursday, August 2, in a Tuskegee hospital.

Funeral services were held August 5 in Zion Chapel Baptist Church with the Rev. Rass Fuller and the Rev. W. M. Rayburn officiating. Burial was in the church cemetery with Hayes Funeral Home in charge.

Survivors include three sisters: Mrs. Vivian Chancellor and Mrs. Emma Ellen Holloway, both of Grove Hill, and Mrs. Dorothy Sheffield, Clanton; five brothers, Alvin D. Hurd, Thomasville, Ga., Ray Hurd, Troy, Jesse Hurd, Montgomery, Harry Hurd, Augusta, Ga., and Charles Hurd, Jacksonville.

Farmers received only 40¢ of every dollar Americans spent of farm-produced foods at the store in 1972.

TTMA Used Trailer

Committee Named

President George L. Collier

President George L. Collier of the Truck Trailer Manufacturers' Association has announced the appointment of a Used Trailer Committee for 1973-74.

Member of this committee in Elba is William Waddell, National Used Trailer Manager, Dorsey Trailers.

Mr. Collier, who is also president of Dorsey Trailers, Inc. in Elba, notes that TTMA members produce over 90% of the truck and tank trailers and containers built annually in the United States.

Speed Leading

Cause Of Death

On The Highway

Commenting on Alabama's rural traffic death toll, State Public Safety Director, Colonel E. C. Dohard, said today that, in spite of reported warnings by safety officers, speed continues to be the leading cause of death.

In a statistical report, he said that in the first five months of this year, 4,005 accidents resulting in the death of 132 people, were caused by improper speed. Of these 1,880 were caused by exceeding the

lawful speed limit, resulting in 94 deaths, while 2,145 were exceeding the safe speed and resulted in 38 deaths.

Crash data, compiled by the Department of Public Safety, clearly reveals that the severity of injury and the risk of death increases as speed increases.

"There is no safe or proper speed for all circumstances," the Director said. "Traffic, weather, road, vehicle, and the physical and mental condition of the driver are all determining factors on what is a safe speed."

Even though we still have the with the indecisiveness secured thereby, and the note evidencing the same, only transferred by the said Real Estate Financing, Inc. to the Lomas & Nettleton Company by instrument dated October 10, 1972, and recorded December 28, 1972, in Misc. Book 22, page 194, Probate Records of Coffee County, Alabama, the undersigned has elected to declare the entire indebtedness secured by the said mortgage to be due and payable as provided in said mortgage, and notice is hereby given that pursuant to law and power of sale contained in said mortgage, the undersigned will sell at public outcry, to the highest bidder for cash in front of the Coffee County Courtroom door in Elba, Alabama, during the legal hours of sale on the 28th day of August, 1973, the following described real estate, situated in Coffee County, Alabama, to-wit:

A lot or parcel of land in Coffee County, Alabama and program agency official warrants, being more particularly described as follows: Beginning at the intersection of the South line of the SE 1/4 of the SW 1/4 of Section 25, T2N, R20E, with the Western side of the New Haven Church Road and Thence N20 degrees 04' E (Magnetic) along the Western side

of said Road, 200 feet; thence S85 degrees 00' W, 200 feet; thence S56 degrees 23' 17" W, 220.85 feet to the South line of said forty; thence N85 degrees 00' E along the South line of said forty, 234 feet to the point of beginning. Said lot being in the SE 1/4 of the SW 1/4 of Section 25, T2N, R20E and containing 0.825 acres, more or less.

Also the following described personal property: Wall to wall carpet in living room, hall and all 4 bedrooms, together with any and all replacements for said items hereafter installed regardless of time in attaching same to use to certify enrollment.

Previously, each of these were a separate step for students or schools.

The package also will transfer the remaining C. I. Bill eligibility time, about counseling and tutorial services, how to apply for educational assistance, and about courses that may be selected for training.

Johnson said that under this new concept, veterans can complete the application and pressure it, along with the COE, to school officials at the time of registration. The school, in turn, will complete the enrollment portion and forward the entire package to VA for processing.

New regulations also provide for payment in advance of initial beginning of classes. Such payment is not automatic but must be requested by the veteran. When requested, and when the school is ready to accept the veteran, the school will forward the VA at least 15 days before registration checks will normally be waiting at the institution for delivery to the veteran upon registration.

Veterans attending summer school should notify the school now of their plans for further enrollment and request payment of their tuition.

Statistics from the Safety Council show that thirty percent of all farm accidents are caused by falls, "according to Winnie G. Laster, executive director of the Coffee County Agricultural Stabilization and Conservation Service (ASCS) Office. "Therefore farmers must guard against falls during this busy season."

were wide-brimmed pink hats decorated with matching bows and ribbons, and carried bouquets of carnations and baby's breath.

Dykes Weeks served the groom as best man. Usher-groomsmen were Steve Adkinson, brother of the groom; Dale Kelley, brother of the bride, and Bluff Crook, Mickey Kelley, brother of the bride, was ring bearer.

Following the ceremony, a reception was held in the fellowship hall of the church.

After a short wedding trip to Florida, the couple resides in Elba.

An after-rehearsal dinner was given by the groom's parents at North's in Elba.

Members of the wedding party and their guests attended.

Miss Martin

Feted With Luncheon

Miss Terry Martin, bride-elect of Larry Miller, was entertained with a luncheon at the Blue Moon Inn in Montgomery on Saturday, August 4, 1973. Hostesses honoring Miss Martin were Mrs. Charlie Martin of Montgomery and Mrs. Mary Purvis of Montgomery.

The large oval table, set with white linens and white daisies, was decorated with white and pink flowers. The bride wore a gown of white and pink, and the bridesmaids wore white dresses.

The luncheon was served by the hostesses, and the bride and bridesmaids were seated at the head of the table. The groom and groomsmen were seated at the opposite end of the table.

Miss Hodge - Mr. Flowers

To Wed

Miss Linda Hodge and Mr. Flowers are to be married on Saturday, August 11, 1973, at 2:00 p.m. at the Elba High School.

Miss Hodge is a graduate of Elba High School and Mr. Flowers is a graduate of Elba High School.

The bride's father is Mr. George Hodge, and the groom's father is Mr. George Flowers.

The bride's mother is Mrs. Mary Hodge, and the groom's mother is Mrs. Mary Flowers.

Ann Martin

Honored At Party

Miss Ann Martin was guest of honor at a morning party given by the Elba High School on Friday, August 3, 1973.

Miss Martin is a graduate of Elba High School and is currently attending college at the University of Alabama.

The party was held in the school cafeteria and was attended by many friends and family members.

a spring ring of sheer orange in colors of yellow, green and pink.

Bridesmaids were Miss Karla Murphy of Battle Creek, Michigan and Mrs. Paul Dalbey of Chicago, Illinois. Miss Dawn Hughes, the bride's cousin from Elba, was the Jr. bridesmaid. Each wore a long gown of sunny, yellow sheer organza draped over yellow or orange featuring a high round neck, high waistline, bishop sleeves.

The flower girl, Miss Kimberly Dalbey of Chicago, Illinois, wore a long dress with the same flowered sheer organza as the maid of honor.

Mr. Herb Hooch of Chicago, Ill., served as the best man. A reception was held immediately after the ceremony in the church Fellowship Hall, with music rendered by Mrs. Jimmy Moore at the piano.

The bride's table was decorated with a white organza eyelet tablecloth gathered into a full skirt falling to the floor. The center of the table held a silver centerpiece with a flower arrangement and candles.

THE FAMILY LAWYER

Living Constitution

Visitors to the nation's capital can gaze upon the original United States Constitution, painstakingly preserved in a helium-sealed glass case in the National Archives Building.

But you don't have to travel all the way to Washington to "see" the Constitution. Just stop into your local courtroom on Law Day, May 1, or any other day with music rendered by Mrs. Jimmy Moore at the piano.

ELBA GENERAL

10 YEARS LATER

On August 11, 1963 Elba General Hospital opened its doors with 28 beds and three doctors - Donald R. Crook, John M. Kimmy and C. P. Hayes, Dr. Hayes being the first Chief of Staff. (Dr. Hayes died a few years ago.) Drs. Crook and Kimmy are still associated with the hospital, and Dr. Bancroft Cooper has been with the hospital since shortly after its opening. Dr. Stephen Kim joined the staff in December of 1972.

The hospital was financed

means of a 1c sales tax passed to finance a bond issue, along with Hill-Burton matching funds.

The original Board of Trustees was J. D. Cook, Chairman; J. D. Whitman, Vice-Chairman; Miss Lillie Harper, Secretary; Treasurer, Mrs. C. E. Dorsey and Mrs. J. M. Kimmy.

Administrator at opening was J. M. Pierce, Director of Nursing, Mrs. Carolyn Patterson, and included on the Nursing Staff were: Mrs. Clarice Gantler,

Miss Jane Rowe, Mrs. Daisy Dehice, and Mrs. Jeanelle Winham.

Lorene Bryan and Brunese Winston began work in the Business Office. (Mrs. Bryan now divides her time between the Nursing Home and Hospital.)

The present board members are: Drexel Cook, Chairman; W. L. Brunson, Vice Chairman; James Martin, Secretary; George Collier and Jimmy Wise, members. They are appointed for five-year terms.

Elba General is a non-profit, short-term general hospital, which now has 43 beds. These include five for Obstetrics or Clean Surgery Patients; two coronary care beds, which are monitored at the Nurses' Station; and one room for psychiatric or infectious cases.

However, psychiatric care is only for temporary and/or emergency patients; there are no facilities or equipment at the hospital to treat long-term mental or alcoholic cases. These must be forwarded to specialized hospitals.

Elba General handles approximately 250 surgical cases per year; registers 71 births per year; has an average annual occupancy of 70%; has approximately 2000 admissions per year; totaling 10,600 patient days per year.

"Why does it cost so much to go to the hospital?" many people ask. First of all, the hospital is open around the clock, utilizing three shifts of employees. It must be ready for service and emergencies any hour of the day or night, and has to provide the necessary treatment, equipment and food; and personnel to administer these aids to recovery. About 70 percent of your hospital bill, therefore, goes into the salaries of the hospital staff; the remainder goes for equipment and supplies.

Debbie Pope, Nell Lawford, Pat Sharpless

MEDICAL RECORDS

Nell Lawford heads this department, and with the help of Pat Sharpless and Debbie Pope, maintains a record on every patient that comes into Elba General. In fact one wall of the room they occupy is filled with folder-covered records; and one other room, known as the "record room" contains data on all patients treated at the hospital since it opened 10 years ago. Vital information and directions dictated by doctors go into these records. After a patient leaves the hospital, his chart goes into this department, additional information is inserted if necessary, and it is filed.

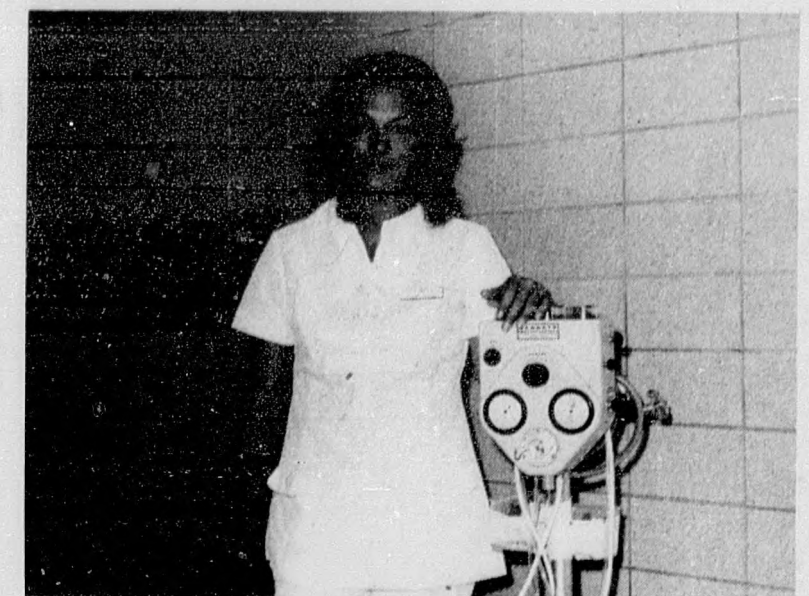

Any time a doctor needs to look at a record on a patient, one of these employees gets it. It is also readily available for use if the patient is again admitted to the hospital.

The employees in this department also type birth certificates and send to the County Health Office for file; maintain the hospital library; make daily and monthly statements on admissions and discharges, and answer insurance requests.

All information in a patient's record is confidential, and only doctors and authorized personnel have access to it.

This record keeping of the sick and injured is not a new procedure. Surgical procedures were recorded on the walls of caves of the Stone Age.

A patient's medical record is maintained for 22 years.

Lonier Anderson

INHALATION THERAPY

This department does just what the name implies - takes care of therapy pertaining to the breathing and lungs of patients. Mrs. Margaret Neely, Martha McDougal and Lonier Anderson make up the staff.

"We provide aid to patients with anything from colds to emphysema," says Mrs. Neely. "Lungs and breathing are our specialties." Implements included in this help for patients are the humidifier, vaporizer, emergency resuscitator. They also set up oxygen tents, perform pulmonary function tests, and IPPB treatments, among other aids to the respiratory system.

This department is also on call at various times - they work two shifts and are on call one.

Seated: Frances Vaughan, Jo Hudson, Jean Kennett. Standing: Antoinette Knight, Gert Traweck, Aline English.

Business Office

Mrs. Jean Kennett is the Business Manager at Elba General. The major functions of this department are: to keep a record of income and expenses

to collect and disburse funds to keep a record of all assets and liabilities to gather statistical information The hospital spends \$727,530

per year in operating expenses. Wages total \$392,400 per year. Other employees in the business office are: Frances Vaughan, Jo Hudson, Antoinette Knight, Gert Traweck, and Aline English.

NURSING SERVICE

Personnel in this department provide physical and emotional care for the patients, and carry out the treatment prescribed by the physician.

The Nursing Service department manages over 50% of all hospital personnel and is apportioned over 50% of the hospital budget.

There are registered professional nurses available for all patients on a 24-hour day basis, seven days a week. Mrs. Evelyn Duncan is the Director of Nursing at Elba General. She hires the nurses and assigns them. Most of the 40-or-so nurses are full time. This number includes RN's, LPN's, Aides and Orderlies. Some of them are students from MacArthur College in Opp who are taking Practical Nursing Courses. "We do grant scholarships," says Mrs. Duncan, "and many times the girls come back to work for us after they finish school."

There are five to nine nurses on a shift. "Right now we have enough nurses," says Mrs. Duncan, "but sometimes we don't." She helps out in all the nursing duties when necessary, including hall duty and making rounds with the doctors. "We try to keep all three shifts covered with nurses," adds Mrs. Duncan.

Evelyn Duncan

Nursing Staff

RN's -- Sarah Windsor, Bernice Donaldson, Yvette Gann, Barbara Penney, Julia Strong, Willie Nettles, Barbara Davis, Marietta Manara, Eulen Hernandez, Lourdes Jalandoni, Evelyn Duncan, Claique Gunter.

LPN's -- Nellie Maddox, Agnes Mack, Bessie Jacobs, Virginia Barnes, Martha Hampton, Sue Sasser, Rose Shiver, Patty Sasser.

NURSES AIDES -- Angie Bowers, Wayne Rugg, Peggy Gullion, Sally Bryan, Margaret Hill, Myrtle Smith, Barbara Lawford, Shirley Smith, Carolyn Danford, Charlotte Blackmon, June Ham, Peggy Wingate, Mary Kelley, Debra Clark, Grace Stevens, Effie Ledman, Hilda Stewart, Carline Wilkerson, Shirley Dean, Nina Allen, Bernice Hooks, Judy Kelley, Reba Johnson, Wayne Windham.

ORDERLIES -- Lamar Killingsworth, Fletcher Maddox, John Walden, Robert Reynolds, Youth Corps -- Howard Flowers, Melvin Knight, Curtis Harrison.

Lourdes Jalandoni, Bessie Jacobs, Myrtle Smith, Eulen Hernandez N. E. Nursing Station

At the present time, Elba General employs three nurses from the Philippines, under a one-year contract. These nurses have already passed their State Board and RN examinations in the Philippines, but at the end of six months at Elba General, they must pass the Alabama State Board in Montgomery. If they pass this and get their citizenship papers, then at the end of the year, they may remain at Elba General, return home or go wherever they choose. If, for some reason, they fail the examination, they are eligible to re-take it in another six months.

All the girls are from close-knit families, "as is common in the Philippines." They lived at home with their parents, and "even after you're married, you can if you want to - they don't mind."

"They didn't especially want to come," they all agreed was the feeling of their families.

All the girls have had two years experience in Nursing before their formal training, and all were educated in English.

Asked if they would stay at Elba General or do otherwise, they unanimously declined to project plans that far ahead. (They have a year at the hospital).

The three girls live together in a trailer. They brought only a few personal belongings with them.

Central Storage And Purchasing

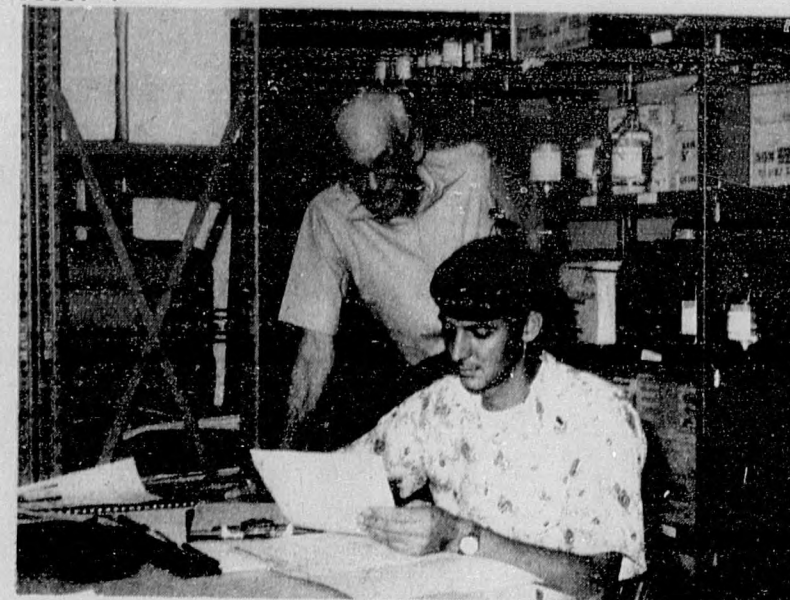

All procurement, regardless of its ultimate use or destination, is carried out in this department - from admission kits and paper cups to ice packs and safety pins.

Each department makes known its needs and wants to Mr. Basil Crook and Ronnie Vaughan, and they in turn see that these supplies are provided.

The purchasing department must also be familiar with the intended use of the item.

Four basic objectives guide the buying process: low prices, continuity of supply, consistency of quality and favorable supplier relations.

After supplies are received, they are separated and stored for the convenience of the individual department. Each department is then responsible for an accounting and reporting to Purchasing the materials used.

Basil Crook Ronnie Vaughan

Terry Stiff George Keltner

X-RAY

The X-Ray Department is staffed by Terry Stiff, Radiology Technician; George Keltner, X-Ray Technician; and Lamar Sasser and Karen Jordan, DO students from Elba High School. Terry received two years of training at the Radiological Technology School at St. Margaret's Hospital in Montgomery. Mr. Keltner has been with Elba General since its inception. Larry and Karen take X-Rays, but with Terry's supervision.

"I enjoy it," says Karen, "and I intend to study in this field after high school." The same desire was expressed by Larry, and his plans include college along these lines also.

Terry's day begins at 4:00 a.m. and ends at 12:00 Noon, and he is on call every other week, alternating with Mr. Keltner.

Any one of these personnel taking X-Rays must wear the heavy lead apron and gloves, to prevent intake of radiation. The apron is black and white

checked and weighs about 10 lbs. The gloves weigh nearly 2 pounds. All the walls of the rooms in the X-Ray Department are lined with lead, including those of the two bathrooms. A small paneled window, of leaded glass, protects the technicians as they snap the X-ray pictures.

One room is equipped with a huge machine for diagnostic work, such as chest and abdomen X-rays; then there is a smaller room, containing machinery and supplies for developing the film. Huge 30-gallon vats hold fixer and developer; these have to be refilled one or two times a week, depending on the number of X-rays taken.

An average of 100 patients per week are X-rayed at Elba General.

Film to be developed is fed into one side of the machine and emerges out the other side, into another room, much like a vending machine works. Here the finished X-ray is clamped in front of a strong light to be read. Copies of the results are then furnished to the appropriate personnel, record is entered into a log book, and the X-Ray is filed by name and number, ready to be pulled at a moment's notice.

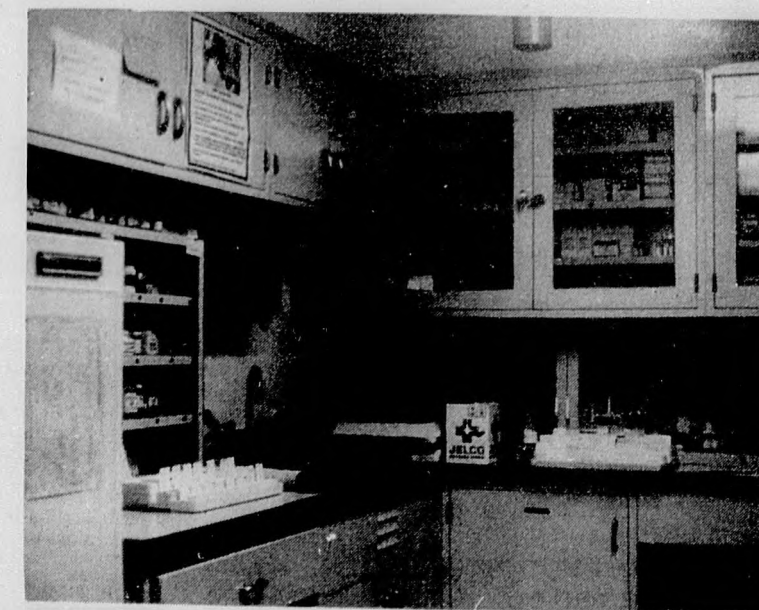

Still another room houses a large Fluoroscope and Diagnostic X-Ray machine which has been at the hospital about five years, and another small outfit which is used for kidney tests, IVP's and Chest X-Ray.

Dr. Dudley Terrell, radiologist from Opp, comes in and reads the Fluoroscope film.

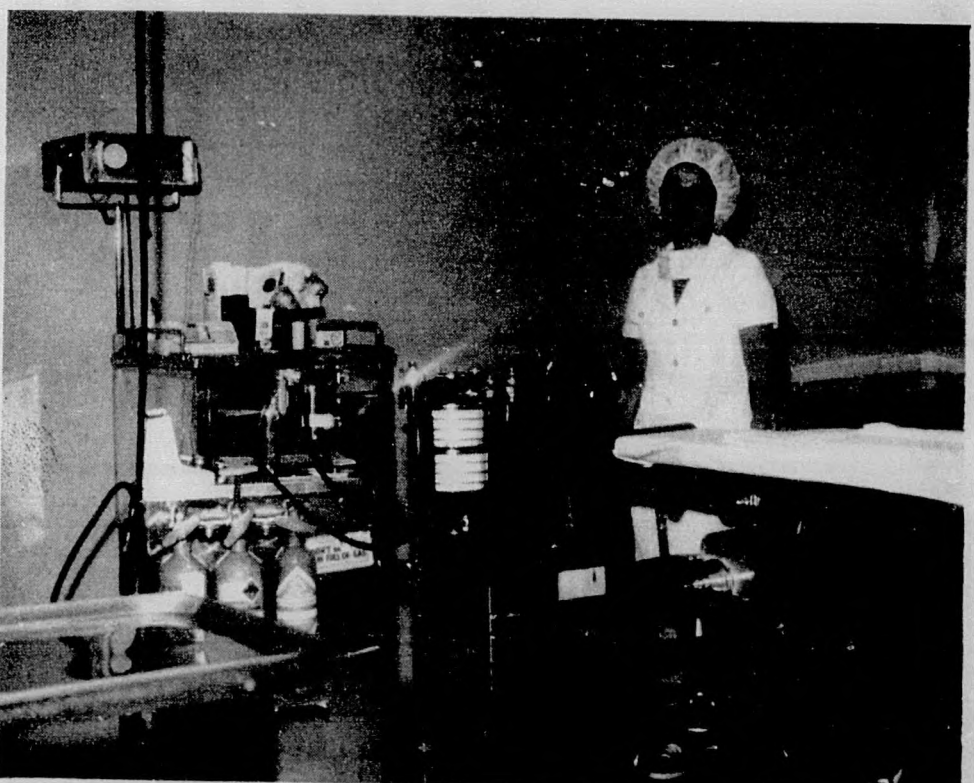

With the use of this machine, the technician can "look right into a person" and of course, take a picture of what he sees.

A portable X-ray is also available in this department, whereby personnel may "go to the patient when he cannot come to them." There are only a few X-ray functions that cannot be performed on this machine.

Reba Johnson - Surgery

Out-Patient And Emergency Service

The function of an emergency department is to give adequate appraisal and initial treatment or advice to any person who considers himself acutely ill or injured.

There is always a physician available to deal with an emergency.

Use of the emergency department is not limited to real emergencies, since the individual any complaint may become an emergency if he cannot locate his physician at the moment.

There is a \$15.00 deposit of all non-acute or non-emergency patients which covers the emergency room fee as well as the doctor's fee.

Twenty-five hundred patients present themselves for treatment in the emergency room at Elba General each year.

Central Supply And Operating Room

Mrs. Reba Johnson is the Technician for these two departments. Wayne Windham, a pre-med student from Elba, also works with her; and when surgery is scheduled, Mrs. Corinne Wilkerson comes in. These employees are on call 24 out of 24 hours.

Their job is to provide sterile supplies - packs, basin sets, solutions, instrument sets, emergency room trays - for the hospital and Nursing Home.

Sterilization is carried out in a big machine called the "autoclave," and the length of time an item stays in depends on what is being sterilized.

Mrs. Johnson and her department also furnish sterile towels, cotton balls, sponges, etc., and sterile supplies for the delivery room.

Of course there are many disposable items that are already sterilized when they come

in," says Mrs. Johnson. In the one operating room at Elba General there are large, imposing machines for various uses in surgery. On hand for major surgery are the surgeon, assistant surgeon, anesthetist, instrument nurse and circulating nurse; for minor surgery, all the team is necessary except the assistant surgeon.

The anesthetist is Mrs. Evelyn Bookout.

"We have more minor surgery than major," says Mrs. Johnson, "and this hospital is limited to general surgery. Patients needing specialized surgery are referred to other hospitals."

The number of major and minor surgery patients for the first six months of this year is as follows: January - 24; February - 20; March - 35; April - 25; May - 32; June - 32.

10 YEARS SERVICE

Lowell Benton - Hospital Administrator

Lowell Benton has been at Elba General since January of 1970. As Administrator, his duties encompass the overall administrative functions of the hospital. He also acts as liaison between the Board of Trustees and the Medical Staff and reports regularly to the Board.

In order to get a better understanding of the operation of a hospital (which pertains to Elba General also), Mr. Benton

has some information on different aspects of the hospital. On what you pay for: Mr. Benton: "Your personal physician's (and/or surgeon's) fees are part of the cost of being ill, but not part of the cost. On the other hand, many hospital activities directly under your doctor's control are included in your bill. For example, laboratory tests.

A few years ago, only two or three were necessary, but

today, according to the American Hospital Association, hospitals often perform ten times as many laboratory tests for the same number of patients as they did only a dozen years ago. X-ray procedures may have doubled and quadrupled. Size of the pharmacy may have doubled or tripled in size, even with no increase in bed capacity. In our larger institutions today, there may be as many as 200 different classifications of employees. All this is in the interest of better patient care.

Why have costs risen so much? Mr. Benton: "Increases in salaries and wages (70% of total hospital cost), development of new equipment, drugs and new treatment procedures, need for additional skilled professional personnel."

On the "Hotel Parallel" attitude of many people:

Mr. Benton: "These are the facts: In a 1,000-room hotel, a staff of about 1,000 people is required (assuming 100% occupancy) - a ratio of about one hotel employee per guest. In a hospital, the necessary ratio is almost three hospital employees to one patient."

LOWELL BENTON

HOUSEKEEPING

(See names below)

Kenneth Hudson heads this department for the hospital and Nursing Home, and has been with Elba General since its beginning - in fact even before. He was getting things ready before the hospital doors ever opened.

A staff of seven maids two porters and five Elba High students help Mr. Hudson keep the hospital clean. These summer student helpers are part of the Youth Corp.

These are: Eula McGowan, Mary Stark, Lillie Mae Wade, Clara Caldwell, Everett Askew, Willie Siler, Clinton Daniels - (Nursing Home -) Corinne Daniels and Mary Helen Robinson.

Students are: Bernard Daniels, Charles McClain, Ray Charles Youngblood, Clifford McClain, Richard Adair.

"Our main objective," says Mr. Hudson, "is to prevent infections from spreading." This is especially true in isolation cases, the Operating, Emergency and Delivery rooms, and the Nursery. These rooms receive intensive scheduled cleaning and disinfecting. "We have to use special germicidal cleaning agents to prevent infections and cross infections," adds Mr. Hudson. The Operating Room is given a thorough cleansing immediately following

an infectious case of surgery, so that it will be germ-free for the next patient.

The floor of the Operating Room is made of conductive tile - this is to prevent buildup of any kind on the floor, since this would interfere with treatments carried out in the Operating Room.

Patients' rooms are cleaned daily; all other cleaning is done daily, seven days a week; all other cleaning is done daily Monday through Friday, with the exception of the special rooms mentioned above. This department also launders the clothing of Nursing Home patients.

LINEN

Virginia Corbett

Clean sheets, pillowcases, towels, etc. are the responsibility of Mrs. Virginia Corbett in the Linen Department. Mrs. Corbett has been with the hospital since it opened, and for the first eight years, maintained linens for the Nursing Home also.

Laundering of the linens is done at a laundry outside the hospital (with the exception of the "sheepskins." These are soft pads which make patients more comfortable - and therapy material - bandages, rib belts, etc. - these are done at the hospital laundry.) All linen is sterilized when it is washed.

Dirty linen is collected and clean linen deposited twice a week. Mrs. Corbett puts it away and moves up packets to be cleaned and an adequate linen supply.

The hospital uses about 7900 lbs. of linen per month; the Nursing Home about half that much.

Mrs. Corbett says "we have to try to keep expenses down and at the same time maintain cleanliness and an adequate linen supply."

Ralph Sharpless, Mike Johnson, Nancy Varney (Not Pictured-Mike Bush)

LAB

The four employees of the Laboratory are responsible for all blood work that is done on patients. Chief Technologist Ralph Sharpless, Lab Technologists Nancy Varney and Mike Johnson, and DO Student, Mike Bush, do blood counts, cross matches, study red and white cells to determine low blood, etc.

Mr. Sharpless and his wife, Pat, only recently came to Elba from Hartselle, Alabama; Pat works in Medical Records.

A new semi-automated chemistry machine enables the Lab personnel to do certain blood analyses in a short time. This piece of equipment cost \$8,000.

The Lab is also responsible for the maintenance of the blood bank - the storage of blood collected by the Red Cross. They normally have about half a dozen units (pints) on hand - depending

DIETARY

The function of this department is to provide the best possible food at a reasonable cost. Carrying out this responsibility for meals and all kitchen business for the hospital and Nursing Home is Mrs. Mary R. Hutchison. She and thirteen helpers plan and prepare 170 meals per day. (These meals include members of the two staffs also. This adds up to over 51,000 meals in a year's time.)

Before the hospital opened in 1963, Mrs. Hutchison worked at City Hall interviewing people to work in the kitchen. Mrs. Vandevy Danford, who recently retired, worked in this department the full 10 years also.

Special diets are part of Mrs. Hutchison's work, too. Does she get many of the standard complaints of "that hospital food?" "Some, but not many," she says. "Most people appreciate it. I've had people say our food was better than in any hospital they knew."

Hospital personnel believe that good food is important in the treatment of the patient and that it is a part of his total care. They work under the scientifically proven fact that adequate nutrition hastens the recovery of patients.

Most food comes from local suppliers. "We get meats, chickens, jellies, etc. from Elba Packing; staples and No. 10 cans of foodstuff from Sam Sawyer; and a little bit of everything" from Big Bear," says Mrs. Hutchison. "Some of our milk comes from here, and some from Dothan and Enterprise."

All kitchen clean-up is under Mrs. Hutchison's supervision.

Other members of the Dietary Department are Odessa Pruitt, Dorothy Caldwell, Mary Frances Daniels, Kate Maca, Ruby Weatherford, Jessie Reynolds, Debra Silas, Alberta Taylor, Dixie Belle Smith, Annie Doris Smith, Ruby Celia Young, Nina Robinson, and (Mr.) Alton Young.

FIRST MEDICAL STAFF

Notes on the Hospital Scene in General, as compiled by the Alabama Hospital Association. Today a hospital room costs \$75 a day in many places. (But not at Elba General.) These are the days, tho, when only one of a hundred will die after major surgery, one out of three cancer victims can be saved, 95% of America's babies are born in hospitals with a healthier start in life and the prospect of living to be 70 or more. pneumonia, whooping cough, scarlet fever and polio, where they occur at all, are rarely fatal.

Today you get life-saving equipment that didn't exist in the "good old days" when a hospital room cost only \$9.50 a day; such as an auto analyzer, a computerized automated laboratory that provides a chemistry profile of twelve different laboratory tests all at once, using a small amount of blood.

These twelve tests help a physician diagnose better and faster diseases of the liver, kidney and heart. Price tag - \$30,000. Or X-ray equipment - when you go to a hospital for X-ray diagnosis or abdominal pains, you don't want the decision to operate made on a piece of equipment that cost \$5,000 when it was purchased 25 years ago. You want it made on the most modern X-ray equipment on the market that costs \$50,000 and up-to-date. An artificial kidney machine costs \$7,000 - \$10,000 per bed; a coronary care unit costs \$10,000 - \$20,000 a bed.

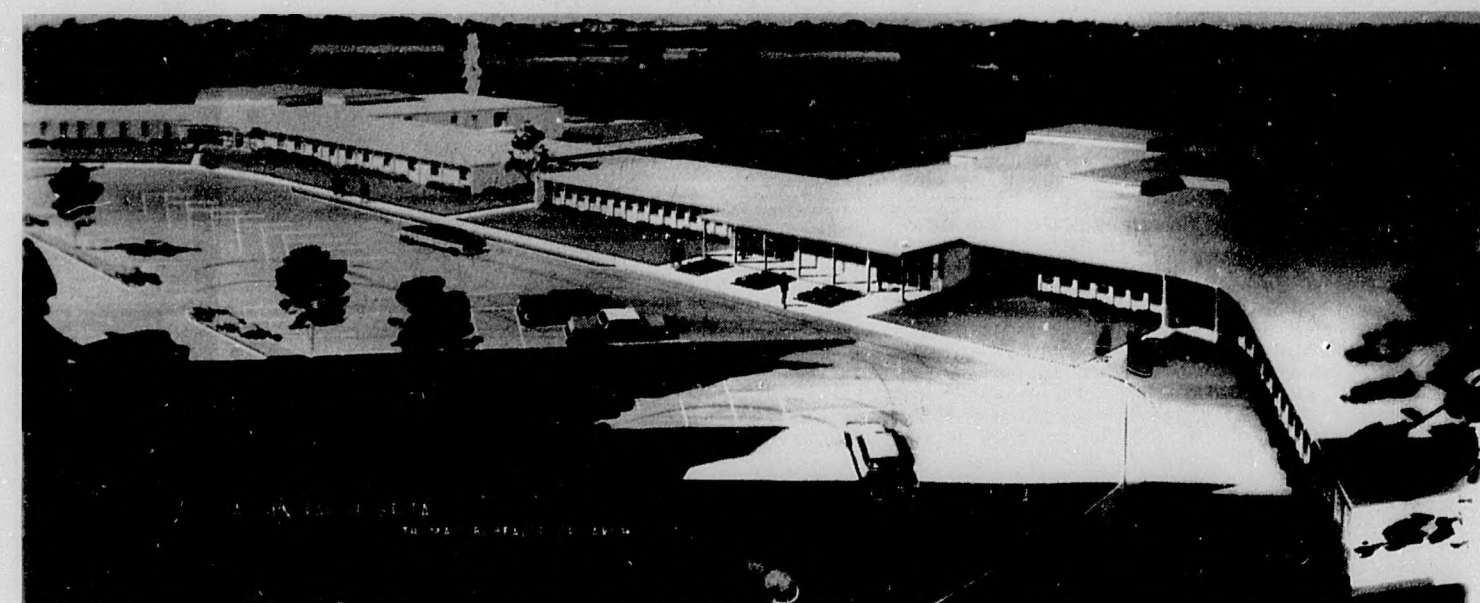

Only Alabama's major medical centers can justify the purchase of all the latest scientific equipment, so today hospitals are sharing this equipment more and more. But greater than equipment costs are people costs. When you are a patient today, you are served by more and better trained people - better paid people. Hospital wages and salaries are now competitive with those of jobs requiring similar ability in government and business. But this competition causes hospital costs to go up as wages in industry go up.

Many hospitals use computers as extensively as possible for programs such as payroll, billing, accounting, inventory control, medical records, cost accounting, etc.

Another area of economy in hospitals today is specialization. Nurses now are better trained, more highly skilled.

Also, there are a lot of smaller improvements in hospitals that individually don't save much but collectively amount to huge savings. Electrically operated hospital beds for example, allow a patient to adjust his own bed by pushing a button, saving a nurse or assistant three or four minutes.

MAINTENANCE

Kenneth Hudson and two part-time helpers - Rhett Crook and Rudolph Crook, keep "things working and wheels rolling" at the hospital.

"This is a 24-hour job," says Mr. Hudson. Although they work on an eight-hour schedule, they are on call around the clock. "We're apt to get shaken out of sleep at 2:00 a.m. to come fix something - and it can't wait," he says.

Mr. Hudson knows the workings of all the machinery in the hospital and what to do when it breaks down, all that is, except the calibrated equipment (such as in Inhalation Therapy). This must be taken back to the factory for repairs. Only minor preventive maintenance is done on it.

Mr. Hudson's interest in plumbing and electricity began when he was 17 or 18 years old, totaling 140 tons, cool the hospital. "And this is not enough," says Mr. Hudson. "We need to add another system."

There are two 40-horsepower steam boilers; four hot water boilers and two emergency generators in operation at the hospital. A variety of other equipment provides comfort for the hospital personnel and patients also, such as pumps, compressors and fan units.

"When we had the tornado, I had not left the hospital - and did not leave till 10:30 that night, after energy had been restored. After the initial darkness, the emergency system came on, but was not sufficient for continued use. Rescue and Guard units provided the remainder of the needed power."

The Elba Clipper

BANANA PLANT GIVES FORTH FRUIT

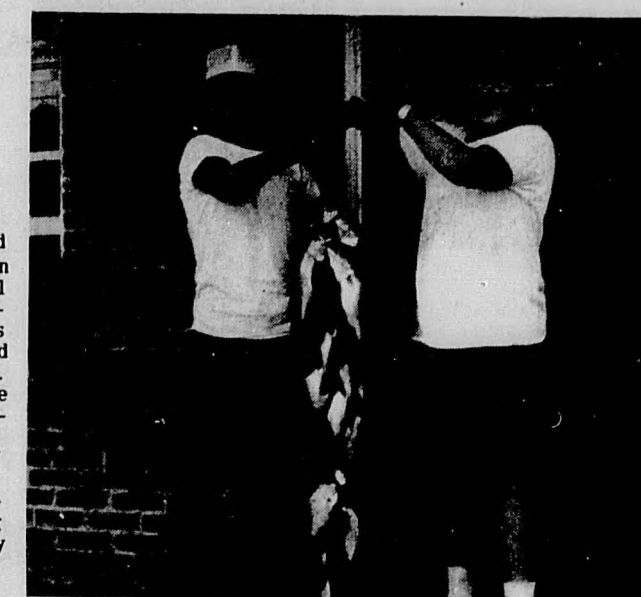

The banana plant at the Elba courthouse is actually producing a stalk of bananas this year. Shown with the bananas is Jimmy Foley who watches the bush (or tree) each year with great anticipation. Monday of this week he reported to The Elba Clipper that he should put a picture of the bananas in the paper and agreed to pose with them if we would be sure we used it on the front page.

Bananas are native of Africa but are now widely grown in other tropical areas. In this area it is very unusual for the plant to actually produce any fruit because of the cold snaps common to the area during the winter months. The banana plant has a stalk with little or no woody tissue and dies down to the roots in winter. Some people attempt to protect it from the cold in efforts to produce fruit but often even this is unsuccessful with the tender banana plant. The courthouse plant had no protection of this kind and in spite of the heavy snow this year is producing one stalk of bananas.

Edmonson Hurt When Mower Overturns

The Elba Rescue Squad rushed Mr. Milton Edmonson to the Elba General Hospital Monday evening after he suffered a severe cut when his riding lawnmower overturned at his home on West Buford. Mr. Edmonson was in the emergency room for 2-1/2 hours as the medical staff cleaned and sewed up the calf of his right leg.

Tuesday evening the hospital staff reported he was doing fine but his leg was awfully sore.

FIRE REPORT

The Elba Fire Department reports three runs during the period of August 7 through 14. They were: two calls to the home of Eva Mae Smith, which was demolished. Another call was to a vacant house on Guyton Street which also burned.

YOUTHS SHOW LARGE CATCH

These two young men were bubbling with joy on Tuesday (August 7) when they stopped at the office of The Elba Clipper with this fine string of fish caught in Pea River. The youngsters, Tracy Fugitt, left, and Bert Morrow, right, caught the 26 pounds of fish in about two hours, and when asked why they quit, Bert said with a note of irritation "I had to come to hand practice."

Fire Destroys Home Burns Youth

A fire raged through the home of Mrs. Eva Mae Smith on Thursday night, August 9, virtually destroying it. The cause of the fire has not been determined. Mrs. Smith's grandson, Larry Johnson, age 17, was in the house at the time the fire began. He has stated that he was on the sofa when he heard a sizzling noise and got to the pantry door about the time the hot water heater exploded. He had extensive burns over 70% of his body and his condition was listed as serious when he was transferred from Elba General Hospital on Saturday, August 11th to the Mobile burns unit in Mobile, Al.

A neighbor of Mrs. Smith's said that Mrs. Smith had gone to church, and that she was just walking out of her house to go to work when she heard something that sounded like a gun shot and looked over to see the whole upper end of the house on fire. The Elba Fire Department fought the fire frantically for well over an hour trying to bring the blaze under control. One of the fireman, Charles Boswell, fell over an ironing board and hurt his knee. He was taken to the hospital where they X-rayed his knee and released him.

Teen Council Sets Rules For Center

The Elba Teen Council met on Monday night, August 6, to establish rules and regulations governing the recreation center. Members of this council are Tommy Skinner, Sandra Clark, Johnny Davis, Virginia Stephens, Richard Clark, and Becky Smart.

The following rules were passed: Friday and Saturday nights are designated as teen nights. Horseplay, running in building, and destruction of property will not be tolerated. Pool will be 20¢ a game. Table tennis shall be 25¢ a ball with a reimbursement of 15¢ when returned to teen manager. Lights must be kept on at all times. No boys allowed in hall to girls' bathroom. No littering on floors, use waste disposals. Use phone only when necessary. No sitting on game tables allowed. There shall be no drinking of alcoholic beverages. There shall be no profanity spoken. Fighting and wrestling not allowed. Parking of motor vehicles must be on front and left side only. Age limits: No one allowed until they reach their thirteenth birthday. Nineteen will be the maximum age unless you become twenty during the summer. In this case, you are permitted to come until September.

Only students or residents of Elba are permitted to come unless they are registered guests of an Elba person. All violations should be reported to the teen club manager. Punishment for violations: Destruction of property must be paid for. A warning is first given for a violation. A second warning will result in a suspension for the rest of the week-end. Any other misconduct will result in a suspension for one month plus parents of this person will be informed of misbehavior.

Parents as well as teen-agers are asked by the Teen Council to express their opinion on the operation of the rec center.

Civil Defense Meeting Called For Monday

The Coffee County Commission has scheduled a meeting on Civil Defense for Monday, August 20th in the New Brockton Farm Center. Invited to the meeting are mayors and councilmen from the four municipalities of Coffee County.

The purpose of the meeting will be to attempt to get an active Civil Defense program working in Coffee County and to have it a co-operative effort of all the county governing bodies. Representatives of the State Civil Defense office will be on hand to answer any technical questions that might arise at the meeting. The meeting has been scheduled for 7:30 p.m.

Mrs. Boswell Receives Thanks From Society

Tuesday of this week, Mrs. Wayne Boswell was presented a certificate of appreciation from the Alabama Society of Crippled Children and Adults for her years of unselfish service to the community. The certificate was presented to her by Mr. Paul H. "Dixie" Dunbar of Montgomery, Field Representative for the society.

Sr Citizens-Ceramics Class At CAP

The Sr. citizens meet each 1st and 3rd Thursday at 2:00 p.m. in the Community Action Center on W. Putnam St. A ceramic class is held each Wednesday afternoon at 2:00 p.m.

Elba High Prepares For Football

Head Coach Paul Bass has been reluctant to give much information concerning the Elba Tigers' starting team this year because the team has so much talent. He feels there are many boys who could play each position and it has been hard for him to decide who will get the starting positions. This year Elba will have only three returning varsity players - they are Jeff Bimbo, defensive halfback; Demp Holley, fullback; and Mike McGuire, offensive guard. Including these three lettermen there will be only five other returning lettermen - Charles Ellis, Barry Farris, Bill Mickle, Ronnie Mickle, and Lamar Sasser.

For Elba football fans the season might look formidable, but the Tigers will have plenty of speed and size and a desire to win, which has been a trademark of the Elba team for many years. Coach Bass urges everyone to support the team this season and attend every football game.

SCENE AT FARM CENTER

Farm Center Dedicated Friday In New Brockton

Senator Jim Allen was guest speaker at the dedication ceremonies of the Coffee County Farm Center in New Brockton. The Farm Center will seat 2,500 for livestock exhibitions and portable chairs can be used for other types of shows. Wrestling matches are already being held there.

Tom Casaday, county extension chairman, was master of ceremonies. State Rep. Douglas Easters informed people attending the ceremonies that he has introduced a bill in the Legislature for a \$50,000 appropriation to add a livestock holding facility to the complex.

Facilities are included for County Extension Service, the Agricultural Stabilization and Conservation Service, the Soil Conservation Service, Farmers Home Administration and County Engineer. Probate Judge James L. Sawyer said that the Farm Center was made possible by a \$350,000 grant from the Economic Development Administration with the remainder of the \$778,000 contract being supplied by the Coffee County Commission.

ALLEN DINNER A SUCCESS

Senator Jim Allen was speaker at a barbeque dinner at the Elba Middle School on Friday, August 10th. He was awarded the Key to the City of Elba by Mayor Jack Brunson. Shortly afterwards, Senator Allen spoke for a few minutes on several topics. Included in his speech was his duties as a representative of the people of Alabama. Senator Allen also stated that he believed more goods should be kept at home so that price increases might ease. Senator Allen added that he would continue to vote for the best interests of Alabama.
